Education

2022 -Present

InternationalUniversity Business Agriculture and Technology

Bachelor of Computer Science& Engineering

Technical Skill

- Programming : C,C++,Java
- Web Development:HTML5, CSS3, Bootstrap,JavaScript
- Database: MySQL,MongoDB
- Tools: Git, GitHub, VS Code, Postman

Interpersonal Skill

- Communication & Team work
- Patience & Persistence
- Time Management
- Continuous Learning
- Problem Solving & CriticalThinkingn

Language

Bangla, English

Project Experience

Antique Shop Management System | JavaScript, Node.js, MongoDB, Express.js

- Developed a complete inventory and sales management system for antique retailers - Implemented CRUD operations for product catalog management - Designed database schema using MongoDB for efficient data storage - Created RESTful APIs for frontend-backend communication

Online Bookshop Management System | JavaScript, Node.js, MongoDB, Express.js

- Developed an e-commerce platform with integrated old-book resale marketplace
- Implemented user authentication and role-based access control
- Designed database schema using MongoDB for dual inventory management
- Created RESTful APIs for book catalog and transaction processing

Auction Architecture System [Ongoing] | JavaScript, Node.js, MongoDB, Express.js

- Developing a real-time online auction platform with live bidding functionality
- Implementing secure user authentication and role-based access (buyer/seller/admin)
- Designing database schema for auction listings, bid history, and user management
- Creating RESTful APIs for auction operations and real-time bid updates
